

## Candlemas: Reading Comprehension

**Instructions:** Read the following article about Candlemas and answer the questions that follow.

Candlemas is a Christian holiday celebrated on 2 February. It is also called the Festival of Lights, and it is a time when all the candles the church will use that year are blessed. People put lighted candles in their windows to celebrate.

Some people believe that if it is sunny on Candlemas, winter will continue for many more weeks. And if it is cloudy, they think winter is coming to an end. This proverb explains the idea:

If Candlemas Day be fair and bright

Winter will have another fight.

If Candlemas Day brings cloud and rain,

Winter won't come again.

There are several superstitions associated with Candlemas. Some people believe that if a candle drips on one side while being brought into a church on Candlemas, a family member will die in the coming year. People also think that it is bad luck if snowflakes are brought into a home before Candlemas. Finally, Christmas decorations that are left out after Twelfth Night (5 January) shouldn't be taken down until Candlemas.
