

# ***The Polar Express Party***

## **Make Your Own Paper Tree Garland (all ages)**

- Select the papers you wish to use and cut strips of varying widths.
- Place some glue on one end of the first strip . . .
- . . . and overlap it over the other end forming a loop.
- Place glue on the second strip and insert it through the first loop, and also create a loop just like the first one.
- Continue adding new loops until the length you need is completed.
