

Print page and cut as shown. Distribute the definitions and the words to students. Give students three minutes to find the definition or word that matches the one they have. Provide help if students need assistance reading the word or definition. When students find their match have them circle the prefix of the word and scoop and mark the syllables. Remind them to circle the suffix if there is one. Direct each pair to come up with a sentence using the word.

Have each pair read their word and the definition and write them on the board. If they were able to come up with a sentence, have them share the sentence. Point out how the prefix helps us determine the meaning of the word.
