

### **PREPARATION**

- Divide students into groups of 2-4.
- Print the Memory activity sheet on durable paper.
- Cut out cards and give one set to each group.

### **MEMORY**

This activity provides students with a memory, rhyming exercise and decoding practice.

#### *Instruct Students*

Have students place cards face down in front of them. Tell them they are playing a “memory game.” One student in each group begins by turning over two cards and reading them. If the two words rhyme, he can keep the cards and take another turn. If the words do not rhyme, they are returned face down and another student takes a turn.

The activity continues until all of the cards have been taken by students.
